

**“The fool has said in his heart, ‘There is no God’”
(Psalm 14:1).**

JUST BY LOOKING AT CREATION, you know that there is a Creator. Just logically and reasonably, it's obvious that there's a God. Only a fool could really believe that it all happened by accident. Just look at the trees and the birds and you know that it wasn't an accident; too much planning went into it all. God's entire glorious creation is a constant testimony to the existence of a divine designer. "Since the creation of the world His invisible attributes are clearly seen, being understood by the things that are made" (Romans 1:20).

Although the whole creation testifies of the existence of the invisible God, many people today refuse to receive the testimony because they choose to be ignorant. They don't want to confess that He exists. They would like to get rid of Him, but in order to do that they need some other explanation for how all this got here, so the Devil helped them cook up the idiotic scheme of evolution. "As they did not like to retain God in their knowledge, God gave them over to a debased mind" (Romans 1:28).

But we who believe marvel at the work of God's hands. We see Him in His handiwork. We come to understand Him better through the things that He made, and we glorify Him and are thankful.
