

Warning! Please refer to the Maker's Manual before operating your machine.

ANY THINKING PERSON thoroughly studies the instructions to a valuable piece of equipment before they attempt to operate it. As a result, they save themselves a lot of time and trouble and possible permanent damage to their equipment. But those who are too impatient to read the instruction booklet first, those who think they already know it all, and those who think they can figure it out on their own usually have nothing but trouble.

When God fashioned our bodies, minds, and spirits and then put them all together to make you, He created an amazing but delicate piece of "equipment." You are a marvel of His design, but you won't last long or be very useful unless you take care of your equipment.

That's why your Manufacturer, God, had some men of His write a maker's instruction manual, the Bible, with definite diagrams and clearly stated specifications for the complicated business of living. You could waste an awful lot of time and do an awful lot of damage to yourself and others by not taking time to read the Book first. Don't take chances. Read and follow the Book!
